

# INTEROPERABILITY for MOTOTRBO™

## Create Your Own Command Center

TURBO•X<sup>2</sup> is a mobile interoperability solution for anyone. Create quick talk groups any time, with any mobile radio on any frequency.

Complete with microphone for single point of dispatch. Can be used with headset & microphone combo. Ideal for use as an instant, on-scene command center.

Sample of how to create your own command center.

Put together a team on-the-fly,  
when duty calls.

### Features
